

**Suhas Shivaraju, Dhruvin Patel, Ananthram Tekkakota, William Doan, Jason Shetty, Devansh Agarwal**

**Goal:** We aimed to build a smart, AI-powered dashboard that turns natural-language questions into instant, actionable answers.

## Approach:

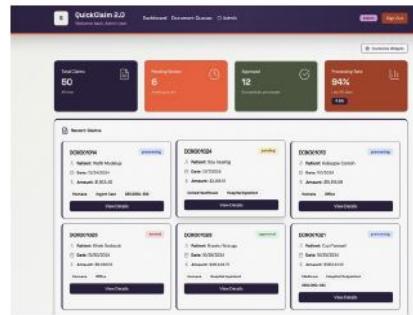

- Full-stack web application using a modern Next.js architecture
- Frontend built with **Next.js**
- 14 + **React + TypeScript**
- Backend implemented through **Next.js API**

## Routes

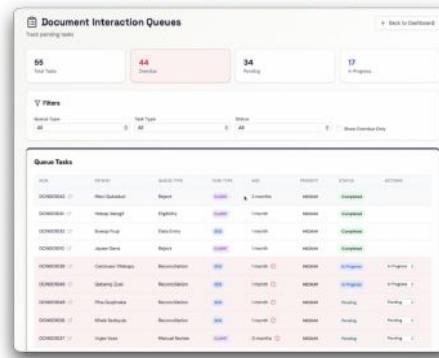

- Secure authentication using **NextAuth.js v5** with Prisma + database-backed sessions
- **MySQL + Prisma ORM** for a scalable, type-safe data layer
- AI integration via **LM Studio (SmoLLM3)** with optional OpenAI fallback
- UI built with **Tailwind CSS** and **shadcn/ui** for consistent, responsive design
